W. R. Allen, Jr., was here from Bunker the first of the week. He says that certainly is a great lumber town.

We believe that Ironton now has one of the most commodious and best arranged post-offices in Southeast Missouri.

H. B. Jones has given Chas. J. Tual the contract to build him a six room residence in east Ironton. It will be located just north of Dr. H. M. Jones' home and the structure is to be a brick veneer.

The Ice Cream Social on the M. E. church lawn last Friday evening was well patronized. The net proceeds were about twenty dollars. Rev. Kirkman and his congregation desire us to express their thanks to the people in general, and the Ozark Band in particular.

The Arcadia folk made nearly \$300 out of the picnic last year. They hope to do as well this time so they will be assured the electric lights on their streets for another year. A good cause. Help it along.

A public reception will be given at the Missouri Home for Aged Baptists, in Ironton, Thursday evening, half past seven, July 3. Everybody invited to attend and meet the members of the Board of Trustees.

We are in receipt of a card from Mr. and Mrs. M. Johnson, of Colton, California, announcing the marriage of their daughter, Florence Vivian, and Lewis Gould Heyser, Wednesday, June 13, 1913. Our best wishes.

The Baptist Assembly folk last week purchased thirty acres of land from H. M. Blossom, of St. Louis. The land adjoins the Assembly ground on Arcadia Heights and is desirable for camping purposes. Price, \$800.

Assessor John I. Marshall has been busily engaged for several weeks getting ready to make the assessment for 1913. He proposes to try and make a better assessment than the county has had for years. It is to be hoped.

I hear of fish-spearing and their killing by shooting and by dynamite, in the streams of this section. This is a kind of law breaking for which there is no excuse or palliation, and offenders ought to be given the limit.

The Gleaners will celebrate the opening of the new basement of the Presbyterian church, by giving an Evening consisting of Recitations, Music, and a play, entitled "A Cup of Coffee"—June 26th, 8 o'clock p. m. Ice cream and cake will be on sale. Admission 10 cents.

Mr. Roy Maxwell and Mrs. McKinney of Central Hotel, at Williamsville, were in the valley last Thursday and secured the privilege of the Dining Hall on the Methodist Assembly grounds. They are experienced in the business and have a fine reputation for setting attractive meals.

In working up a hickory log at the Ironton Wood-Stock factory last Saturday the saw cut through a leaden ball, imbedded near the center of the log. It was probably a musket ball, fired into the tree in war times. Mr. Kellogg tells us that not infrequently they come across leaden balls in the logs.

Judge Dearing held an adjourned term of circuit court last Saturday morning for the purpose of rendering decisions in the cases of M. P. Smith and Geo. Begley, Jr., vs. J. N. and J. Madden. These were suits on contract that came here from Butler county on a change of venue. The court found for the plaintiff in both cases.

Mr. Jim Lewis, president of the American Tobacco Company of St. Louis, with his wife, passed through Farmington last Friday on his way to his country home in Arcadia, Mo., and stopped for dinner with Mrs. E. A new time card goes into effect on the railroad to-day (Wednesday). Train No. 9 is now due at Ironton at 8:45—about an hour later than heretofore. No. 10 is due here at 3:28 A. M. The trains on the Belmont branch that connected with Nos. 9 and 10 at Bismarck have been taken off the road. The milk train running from De Soto to St. Louis, has also been discontinued.

Judge Dearing and Stenographer Jarvis arrived in Ironton Friday evening. An adjourned term of circuit court was held next morning and Saturday noon they left for Poplar Bluff. They spent that afternoon fishing in Black river and left next day for Bloomfield where Judge Dearing will try several cases against the cashier of the bank that recently failed in that town.

The little street oil experiment in the east end of town has tended to an awakening of a greater interest here in allaying the dust nuisance. Scott Hopkins has raised a fund by subscription among our business men amounting to \$144 to carry the experiment on through the business part of town. The city will lend its aid to the project by cleaning the street of the dust before the oil is applied.—Potosi Journal.

Our drouth was broken by a fine rain Sunday night and Monday. It was not a down-pour; just a gentle, easy rain. In all, .94 of an inch of water fell. Not near as much as we needed, but did a world of good, at that, and we hope for more soon. It has been very warm all week. Last Wednesday the thermometer climbed to 101—the hottest day. Last night (Tuesday) was the warmest night, so far. The low point of the mercury was 72.

The editor is indebted to Mr. and Mrs. J. F. McHaney, of White Oak, Missouri, for an invitation to the marriage of their niece, Gertrude Bell Moore and Mr. Frank Ivy Jones, on Monday June 30, 1913, at three o'clock p. m. Mr. Jones is an Iron county boy, a brother of our County Treasurer, Mr. T. D. Jones. He has been teaching school in Dunklin county for some time past. We wish him and his every happiness.

The cost of filling Troy's streets this spring was \$625.64, and it was necessary for Mayor Killam to call on the one hundred contributors for extra donation of 70 cents each, to meet all expenses. There were 10,164 gallons of oil used, which cost \$3.90 per hundred gallons. Some people think this is a lot of money, and we admit that it is, but if we are not bothered with dust this summer, the money will be well spent.—Troy Free Press.

The Telephone Company will soon begin the erection of a trunk line from Poplar Bluff to Willow Springs which will make the connection between this section and southwestern part of the state much shorter and consequently cheaper. If any one here in our county should wish to 'phone to the southwest now their message would have to go via St. Louis and Springfield. The proposed new line will fill a much needed and long-felt want.—Centerville Outlook.

The Ladies' Social Club held its final meeting of the season Tuesday afternoon of last week with Mrs. M. A. Gay as hostess. There was a full attendance present. Current events were given in response to roll call. An interesting part of the programme was when each one was asked to relate some past experience in early days—travels, accidents, etc. Another delightful feature of the afternoon's enjoyment were the piano selections rendered by Miss Alice Gay. Delicious refreshments were served. Adjourned until October.

B. P. Wiggs, of St. Louis, Deputy State Game Warden, who was in the county a few days recently, reported to Prosecuting Attorney Benham that he had secured evidences of dynamiting in local streams against four men and five merchants for selling dynamite illegally. He did not ask for warrants for the arrest of the persons, but said he would later. We believe every person who fishes in the local streams would be glad to see a stop put to dynamiting for fish. This kills all the fish and the man who does it gets but few of them.—Farmington News.

Alberta Claire, "The Girl from Wyoming," who is now touring the state for the St. Louis Times in the interest of good roads, arrived in De Soto at 6 o'clock on Wednesday evening from St. Louis. She was met out on the road by a number of citizens and members of the Woman's Club and taken to the Arlington hotel where she was entertained. In the evening she appeared at the Air Dome to a large crowd of people. This little woman came to De Soto something over a year ago in a blinding blizzard with thermometer below zero. This time the mercury was near the one hundred mark. The lady very much appreciated the interest taken in her by our people.—De Soto Republican.

Many of our readers will recall, Alberta Claire, "The Girl from Wyoming," who rode through this county in February 1912, on her way east. The following is taken from the St. Louis Republic of June 16th: "Alberta Claire, 'The Girl from Wyoming' who gained fame because of her long-distance horseback rides, passed through St. Louis again yesterday. She is yet riding 'Bud,' the pony that carried her so many miles. On her former visit she was going east. This time she is headed westward and says she is going to make her home near the coast of California. While in New York she drove the last rivet in the Woolworth building, the highest in the world, and she was permitted to ride her pony on the famed Board-walk at Atlantic City."

Mrs. Woodside asks the REGISTER to tell the ladies that she was in St. Louis last week to find out just what was new in Summer Millinery and learned that the real up-to-date Summer Hats are most beautiful! Mrs. Woodside, while in the city, bought a nice new line of All White Hats at bargain prices—not the left-over spring hats, but the new summer hats. Also a complete assortment of the new white kid and white patent leather belts, and those new fancy hair pins. The most comfortable corset in town, The Royal Worcester, Bon Ton and Adjusto, non-rustable; prices, 50c to \$6. Saturday morning's mail brought Mrs. Woodside a letter from Ora Cne, in New York, the famous designer and trimmer. He says "all hats are a trifle larger. White is 'raging' and peach-blow pink is the new shade."

Circuit Judge Dearing convened an adjourned term of circuit court here last Monday to hear the quo warranto proceedings against L. A. Letcher, collector of the revenue for this county, to oust him from office on the charge of having illegally accepted a pass from the Iron Mountain Railroad. Before the case was called Judge E. T. Eversole, attorney for Letcher, had filed a temporary restraining order issued by the State Supreme Court last Saturday, prohibiting Judge Dearing from proceeding to try the case. This blocked the trial temporarily and the case was continued until July 14th, by which time the order of the Supreme Court will either have been made a permanent restraint or reversed to enable the local court to proceed with the hearing. Letcher's attorneys, Judge Eversole,

of Potosi, and Judge J. F. Green, of St. Louis, in filing their petition in the Supreme Court for the restraining order, contended that 'the defendant could not be tried in the outer case until it was shown that he was guilty of the criminal offense of having used a free pass as a public officer. The criminal action has also been instituted against Mr. Letcher, but cannot be heard until the regular term of circuit court held next August.—Potosi Journal.

At a depth of 508 feet a charge of dynamite was fired in the well on Arcadia Heights last Wednesday. The discharge was followed by an apparently liberal supply of water, the well filling to within 200 feet of the top. For the first time in all the drilling sand and gravel—indications of water—were in evidence and the contractor, Mr. Sewell, arranged for a test of the well the following day. But the test was a disappointment, for in less than an hour the pump exhausted the well. Next day Mr. Sewell notified the Baptist folk he would throw up the job. Mr. Sewell is a big loser; as his contract was to furnish a well that would supply 1,000 gallons of water on a two days' test; unless he did so he was to have no remuneration. He was game, and battled manfully against great odds and all kinds of hard luck, but, finally was obliged to give up. He has been at work on the hill since last October and says the venture has cost him \$3400. One hole that had been drilled to a depth of 207 feet had to be abandoned, because of a deficiency, and another one started. The Assembly folk, while very much disappointed, are by no means disposed to abandon the project, and will endeavor to arrange with Mr. Sewell to put the well down two or three hundred feet more in the hope they may yet get plenty of water. That is, they do not feel like quitting when it is possible, by prosecuting the work a little farther, water may gush into the well in abundance. The public is assured, however, that there will be a bountiful supply of water on the hill during this year's assembly. The well, as it now is, will supply one hundred gallons, or more, of drinking water an hour; water has been pumped from the creek for several weeks past to supply the engine drilling the well. This pipe will be extended to the deep well at the hub factory, and water pumped from there to the swimming pool and tanks on the hill. The pipes will be cleaned of all rust and a liberal supply of clear, pure, wholesome water is assured.

Madigan wants to show you his line of Vacuum Sweepers. Take one home and try it. They are fully guaranteed.

# DR. PRICE'S CREAM Baking Powder

Purity in food, lower cost of living—these are the demands of the day.

Pure food is health, and health is economy itself. We cannot have health without healthful food.

The most healthful foods are the quickly raised flour foods—biscuit, cake, muffins, crusts and other pastry, when perfectly made from wholesome ingredients.

Dr. PRICE'S baking powder makes these foods in specially attractive, appetizing and wholesome form, and for both economic and hygienic reasons, such food should be more largely substituted for meat in the daily diet.

But bear in mind that alum, or unwholesome baking powder, can never make pure, wholesome food.

### Obituary.

Mr. Samuel Henry Robinson, born May 16th, 1846, at Wellington, Lincolnshire, England, died peacefully and well prepared at his home in Graniteville, Mo., June 19th, 1913, after a long and protracted illness.

He married Miss Lucy M. Koeth, September 14, 1873, of which marriage seven children were born. Those of his family still surviving are: Mrs. Robinson, his wife, Mrs. Mary J. Young, Mrs. Sylvia J. Orlick, Samuel H., Jr., Arthur D., Charles R. and Freddie J. Robinson.

Mr. Robinson was one of the oldest and most respected citizens of Graniteville. His death meant the loss of a faithful husband, a kind father and an exemplary citizen and a dear friend.

He became a convert to the Catholic religion September 29th, 1877, to which church he remained a true, devoted and happy member. In her he found that peace and consolation that his heart longed for so that the words of the poet fully applied:

"Oh, mother church, my spirit home, Long sought and found at last, In thee I find both peace and rest And muse about the past!"

Funeral services were conducted at St. Joseph's Church Graniteville, Mo. Sunday, June 23d at 2 p. m. in the presence of very large audience by Rev. John Adair, of Arcadia, Mo., where he took occasion to deliver an instructive sermon, using as his text, "Blessed are the dead who die in the Lord; from hence forth now, saith the spirit, they shall rest from their labors, for their works will follow them." Acts XIV, 13, showing how faith, together with good works, is the key that unlocks the doors
